

HALEY JAMES

BIO

I am a model, actor, podcaster, youtuber, public speaker & disability advocate passionate about making a difference on screen and off through my creative endeavors!

Though you may not see it, I use a feeding tube due to a rare and mostly invisible condition causing a paralyzed GI tract. I do use a feeding tube with a backpack and I can hook up and unhook up as needed throughout my day.

When it comes to work as an actor or model, I am more than happy to hook up to it to help represent the chronically ill and disabled communities if desired.
